3				
4				
5				

If you specify a Profile Name, we will use this for the file name. If you do not specify a name, we will generate a sensible description based on the Printer/Paper/Ink combination. Be aware that the profile name is embedded in the file and you cannot easily change it after it has been generated.

Remember: It is important that you can relate the profile to the exact set-up used to print the test charts.
